SPEAKERS

Dr Marcos Meseguer

Global Director of Embryology Research,
IVIRMA Research Alliance
Senior Embryologist,
IVI Valencia IVF unit

Dr Marcos Meseguer is a leading expert in reproductive medicine and embryology, holding a PhD in Obstetrics and Gynaecology from the University of Valencia, Spain. An internationally recognised researcher, he has received multiple awards from the American Society for Reproductive Medicine and has led over 30 major research projects, holding international patents in the field. With over 225 scientific publications, 13,000 citations, and more than 800 global presentations, he is widely regarded as a key opinion leader and currently serves as Associate Professor at the University of Valencia.

Professor Livio Casarini

Associate professor,
University of Modena and
Reggio Emilia

Dr Livio Casarini

Dr Livio Casarini is an Associate Professor in Laboratory Medicine at the University of Modena and Reggio Emilia, Italy, specialising in translational endocrinology and pharmacogenetics. He holds a PhD in Evolutionary and Environmental Biology and is a consultant to Merck Serono, focusing on sex hormone physiology. His research spans endocrine pathophysiology, human reproduction, and gonadotropin pharmacogenetics, with international collaborations including Imperial College London and the Bill & Melinda Gates Foundation. He has received multiple research grants and contributes actively to teaching, supervision, and editorial work in leading scientific journals.

Dr Kelly Loi

Senior Consultant Obstetrician & Gynaecologist
Medical Director & Clinical Governance
Officer (CGO) of Monash IVF Singapore
Medical Director of Health & Fertility Centre
for Women

Dr Kelly Loi

Dr Kelly Loi is an Obstetrician and Gynaecologist at the Health and Fertility Centre for Women, Mount Elizabeth Medical Centre, Singapore, specialising in fertility care, IVF, and minimally invasive laparoscopic surgery. A graduate of the University of Oxford, she is a Fellow of the Royal College of Obstetricians and Gynaecologists and the Academy of Medicine, Singapore. She previously served as Medical Director of Mount Elizabeth Hospital Fertility Centre and is currently Medical Director of Monash IVF Singapore, with international training experience at Johns Hopkins Hospital and Massachusetts General Hospital.

Dr Michael Wong

Senior Urologist
International Urology,
Fertility & Gynaecology Centre

Dr Michael Wong

Dr Michael Wong is a US fellowship-trained Urologist in Endourology and Female Urology with a strong international reputation. He is the President of the Endourological Society and World Congress of Endourology and Uro-Technology (WCET) 2025/6, and a recipient of the American Urological Association Global Leadership Award. Dr Wong holds key leadership roles including Executive Director of the Urological Association of Asia and Principal Director of the Asian School of Urology, and has contributed significantly to global education and editorial initiatives, including with the British Journal of Urology International.
